

ANTIBIOTIC USE STATISTICS (ANTIMICROBIAL STEWARDSHIP)

The Albury Day Surgery consistently monitors the use of Antibiotics for patients both intraoperatively and by prescription upon discharge. The Albury Day Surgery follows Antimicrobial Stewardship policies and protocols and reports usage both too consumers and our Medical Advisory Committee.

All patients prescribed Antibiotics receive a consumer education pamphlet along with information regarding Antibiotic use from either the Surgeon or Anaesthetist.

The below results are from a 3 month period.

Albury Day Surgery	
Patient Prophylaxis Antibiotic use between 01/03/2025-31/05/2025	
Indicators	Yes
Intraoperative IV Antibiotics administered/ Patient discharged with script for oral Antibiotics	34
Total patients during time period	653
